

Advacell V Extended Surface Mini Pleat Filter

Description:

The Advacell V extended surface mini pleat filter is designed for use in most commercial and industrial HVAC applications. The Advacell V is suitable for use in areas of high humidity and moisture. The Advacell V is extremely durable, yet is lightweight and easy to install.

Manufacture:

- Constructed with water resistant micro glass fibre media.
- Corrosion free – constructed with rigid moulded plastic.
- Uniformed pleats allows optimal air flow, and a high dust holding capacity.
- Pleats are hot glue melted

Features:

- Designed for use in high turbulence areas
- Suitable for use in areas of high humidity
- High dust holding capacity
- Reduces energy consumption and lowers operating costs
- Ability to handle larger air volumes
- Robust & durable design
- Lightweight and easy to install
- Available in F7 – F9 Rating

PERFORMANCE DATA

Advacell V – F7 (MERV 13)

Product Code	Airflow Capacity 2.54 m/sec		Dimensions (mm)		
	l / Sec	PD	Height	Width	Depth
